

SHE RISES: PROGRESS, POWER, AND PURPOSE

What would you do today if you were brave?

Brave Women is our History: **PROGRESS**
Every story, every effort, every achievement is a gift from our brave foremothers. She paved the way for the many foundational freedoms we enjoy today: civil rights, voting rights, worker's rights, and social equality rights.

"After too many years of being a victim of her circumstances, she woke up. She realized there was more to life than what she settled for. She chose, instead, to be BRAVE!" - Susan L. Brooks

"And still I RISE..."
- Maya Angelou

2018 was a **POWER** year for women. We made great strides. By using our voices and breaking our silence, we generated the movements that resulted in accountability and positive solutions for change.

Today, finally we stand on fertile ground! Women have come of age. Now is the time to take her seat at the table. Yet, there is so much more we have yet to do!

Every woman has potential to lead and influence others. Leadership is about honoring your **PURPOSE** to become the woman you were meant to be, to BE that difference in your corner of the world.

Can you imagine the impact women could make if she were brave?

Unfortunately, women still undervalue their contribution, yet Fortune 500 companies with the highest number of women directors report results with 42% greater return on sales and 53% higher return on net worth. It is clear women leaders make a huge difference in retention AND bottom-line performance in organizations.

Limits will only be challenged once women choose to challenge them. Nothing is off-limits. You can learn any skill. Everything is within your ability. Find your voice. Speak your truth with confidence.

What would YOU do today if you were brave?

Your world is watching! You must BE the change! You must be the solution!

And, so She Rises!
